Objective:

To secure a Frontend developer role in a dynamic organization where I will be able to deliver exceptional user experience and interfaces and also contribute to innovative web and other digital products.

Education:

Bachelor of Science in Civil Engineering,
Obafemi Awolowo University, Ile Ife, Osun State
January 2016

Skills:

- Proficient in HTML, CSS and JavaScript
- Client Side Web Development: ReactJs
- Version Control: Git
- Responsive web and mobile-first development
- Translation of design mockups into functional UI components
- Experience in Redux for state management

Experience:

- Frontend Developer
Yayn Creatives, Yaba
September 2022-till date

- Developed responsive web applications using ReactJs, NextJs and CSS

- Collaborate with designers for implementing UI components and with backend developers for the integration of APIs.
- Implemented state management using Redux
- Debugged and resolved frontend-related issue
- Participated in daily stand-up and code reviews, used Git for version control and followed agile development technologies.
- Meet virtually with clients to discuss requirement and receive feedbacks
- Ensure sites are properly optimized for SEO

Projects

- Developed a responsive e-commerce website using React and Redux which enables users to browse products, add them to their cart, and purchase using Stripe. Implemented routing, validation, and authentication using Firebase and developed an admin panel to manage orders and products.
- Collaborated with a team of five to create a social media platform using ReactJs and NodeJs. Built a RESTful API, developed a login and registration system and implemented features like profile editing, post creation and commenting.
- Developed custom components, implemented responsive designs and deployment of built applications Heroku and Netlify
